

PACIFIC SYMPOSIUM ON BIOCOMPUTING 2023

Big Island of Hawaii, January 3-7, 2023

Welcome to PSB 2023!

We have prepared this survival guide to give you quick access to information you need for PSB 2023.

The latest conference materials are available online at <http://psb.stanford.edu/conference-materials/>.

You will receive one Covid antigen test when you check-in at the PSB Registration Desk. Please test before attending the conference. If you test positive, please do not attend the meetings. You do not need to share your results.

You are encouraged to wear masks inside the meeting rooms. We understand that CDC masking requirements have been relaxed, but PSB 2023 is at maximum capacity, and we want to reduce the chance of exposure as much as possible.

PSB 2023 gratefully acknowledges the support of the Cleveland Institute for Computational Biology; Penn Center for Precision Medicine, Penn Medicine; CIPHEROME; the National Library of Medicine/National Institutes of Health (NIH)**; and the International Society for Computational Biology (ISCB). If you or your institution are interested in sponsoring PSB, please contact Tiffany Murray at psb.hawaii@gmail.com

If you have any questions, the PSB registration staff (Tiffany Murray, BJ Morrison-McKay, and Cindy Paulazzo) are happy to help you.

Aloha!

PACIFIC SYMPOSIUM ON BIOCOMPUTING 2023

Big Island of Hawaii, January 3-7, 2023

Participants will receive one Covid antigen test at check-in. Please test before attending the conference. If you test positive, please do not attend the meetings.

Participants are encouraged to wear masks inside the meeting rooms.

SPEAKER INFORMATION

Oral presentations of accepted proceedings papers will take place in Salon 2&3.

Speakers are allotted 10 minutes for presentation and 5 minutes for questions for a total of 15 minutes. Instructions for uploading talks were sent to authors with oral presentations. If you need assistance with this, please see Tiffany Murray or another PSB staff member.

WORKSHOP INFORMATION

Workshops will take place in the Plaza Ballroom and Salon 2&3. Each workshop is three hours offering extended discussion on timely topics.

POSTER INFORMATION

Please set up your poster when you arrive in Salon 1 and remove it by Friday, January 6 at 5:30pm.

Please use the easel marked with the same number that your poster abstract has been assigned on the abstract list (e.g., if your abstract is on page 50 of the list, use the easel marked #50). Once your poster is displayed, please make sure that the number is still visible.

The poster session is centered around lunch. Please eat, talk, and network.

The poster session is on Thursday, January 5 12:10-2:00.

12:30-1:15: Posters on ODD numbered boards presented.

1:15-2:00: Posters on EVEN numbered boards presented.

INTERNET CONNECTIVITY

Please help keep the PSB wireless network stable: Do not download large data files due to limited bandwidth.

PSB is connected to the internet via a secure wireless network for the conference. For transferring your data/presentations or technical difficulties with the network, please see PSB IT/AV staff members Al Conde, Ryan Whaley, Paul Murray or Mark Woon.

To connect to the PSB wireless network, you will need to explicitly join the "PSB" SSID and use the passphrase "orcpsb123" with WPA2-Personal security type and AES encryption.

PSB's wireless Internet access (802.11b/g/n) is available in the Salons 1, 2, 3, the Plaza Ballroom, and the Ballroom Courtyard of the Fairmont Orchid.

The **Fairmont Orchid Security Staff** consists of a minimum of three Security Officers on each shift, providing 24-hour coverage for the resort property. The Security Staff is trained and certified in First Aid, CPR and A.E.D. Security patrols are conducted on a continuous basis throughout the resort. All patrols are radio dispatched.

The resort has in place an emergency team of A.E.D. (Automatic External Defibrillator) certified users in the event of sudden cardiac arrest. The team is trained in its use in conjunction with cardio pulmonary resuscitation. We have 6 A.E.D.s throughout the property so full coverage of the property is more easily maintained.
